Forensic Science International, 60 (1993) 213–214
Elsevier Scientific Publishers Ireland Ltd.

CONTENTS
Volume 60 (1993)

Publishser's Note v

Editorial
by P. Saukko, Editor-in-Chief 1–2

Preliminary Communications
Alcoholism and ketoacidosis
by J.L. Thomsen, P. Theilade, S. Felby and E. Nielsen (Copenhagen, Denmark) 3–4
'Rave' to the grave
by D.E. Cox (Dundee, UK) 5–6

Liquid chromatographic, thermospray/negative ion, tandem mass spectrometric (LC/TSP/MS/MS) analysis of some explosives
by A.M.A. Verweij, P.C.A.M. de Bruyn, C. Choufoer and P.J.L. Lipman (Rijswijk, The Netherlands) 7–13
Computer registration of missing persons. A case of Scandinavian cooperation in identification of an unknown male skeleton
by L. Kullman, T. Solheim, R. Grundin and A. Teivens (Stockholm, Sweden; Oslo, Norway) 15–22
Genetic investigations in immigration cases and frequencies of DNA fragments of the VNTR systems D2S44, D5S43, D7S21, D7S22, and D12S11 in Turks
by H.E. Hansen and N. Morling (Copenhagen, Denmark) 23–35
Distribution of alleles and genotypes from three hypervariable DNA loci in individuals from central and southern Italy
by M. Dobosz, E. D'Aloja, M. Pescarmona, A. Moscetti and V.L. Pascali (Rome, Italy) . 37–46
Analysis of the locus D1S80 by amplified fragment length polymorphism technique (AMP-FLP). Frequency distribution in Danes. Intra and inter laboratory reproducibility of the technique
by M. Thymann, L.J. Nellemann, G. Masumba, L. Irgens-Møller and N. Morling (Copenhagen, Denmark) 47–56
Protection and radiography of heat affected teeth
by C.J. Griffiths and G.D. Bellamy (Sydney, Australia) 57–60
Long-lasting postmortem viability of human immunodeficiency virus: a potential risk in forensic medicine practice
by H. Douceron, L. Deforges, R. Gherardi, A. Sobel and P. Chariot (Créteil, France)..... 61–66
Europium aryl-β-diketone complexes as fluorescent dyes for the detection of cyanoacrylate developed fingerprints on human skin
by D.A. Wilkinson and J.E. Watkin (Ottawa, Ontario) 67–79
Novel detection of plankton from lung tissue by enzymatic digestion method
by M. Kobayashi, Y. Yamada, W.-D. Zhang, Y. Itakura, M. Nagao and T. Takatori (Tokyo, Japan) 81–90
A simple method for diatom detection in drowning
by H. Matsumoto and Y. Fukui (Kyoto, Japan) 91–95
An oilspill, alcohol and the captain: a possible misapplication of forensic science
by H. Hollien (Gainesville, FL) 97–105
Fatal anaphylactic reaction to diclofenac
by A.M. Alkhawajah, M. Eifawal and S.F. Mahmoud (Dammam, Saudi Arabia) 107–110

Bone strength in infants
by I. Morild, N.R. Gjerdet and J.C. Giertsen (Bergen, Norway) 111–119
Sudden death presenting as massive haemoptysis due to ruptured intrapulmonary aortic aneurysm
by P. Dickens, S. Pittaluga and C.H. Chau (Hong Kong, Hong Kong) 121–125
Stability of explosives' traces on different supports
by P. Kolla and P. Hohenstatt (Wiesbaden, Germany) 127–137
Diary of Future Events 139–140
Improved method for DFO development of latent fingerprints
by M. Stoilovic (Canberra, Australia) 141–153
Methamphetamine synthesis via reductive alkylation hydrogenolysis of phenyl-2-propanone with *N*-benzylmethylamine
by H.F. Skinner (National City, CA) 155–162
Postmortem changes in resistivity of the anterior abdominal wall during the early posmortem period in rats
by D. Querido (Observatory, Republic of South Africa) 163–177
Postmortem serum selenium concentrations and their possible etiological role in sudden infant death (SID)
by R. Lemke, A. Schäfer and W. Makropoulos (Aachen, Germany) 179–182
Rapid postmortem changes of rat striatum dopamine, serotonin and their metabolites as monitored by brain microdialysis
by K. Yoshimoto, Y. Irizawa and S. Komura (Kyoto, Japan) 183–188
A study of the precursors, intermediates and reaction by-products in the synthesis of 3,4-methylenedioxy-methylamphetamine and its application to forensic drug analysis
by R.J. Renton, J.S. Cowie and M.C.H. Oon (London, UK) 189–202
Diary of Future Events 203–205
Subject Index 207–209
Author Index 211
Volume Contents 213–214
